CATALOGUE

TATTOO SUPPLIES

FREE UK DELIVERY

KILLER INK are Europe's leading supplier of tattoo equipment.

We offer a wide range of quality tattoo supplies at competitive prices.

We hope you enjoy browsing through our catalogue and we look forward to your orders. Our catalogue does not contain our full product range. With new products arriving daily, please check out our website for a full up to date range. If there's something you need, but you can't quite find, just drop us a line or give us a call and our friendly, experienced staff will try their best to assist you.

Unlike a lot of other suppliers, all our prices are inclusive of VAT.

To order online, you can create an account through our website www.killerinktattoo.co.uk. Alternatively, please contact one of our sales team by phone on 0151 708 0000.

All orders received before 6pm Mon - Fri can be dispatched the same day, if UPS is selected as your courier, otherwise your order will be sent the next working day. We offer a range of delivery services including 48hr, next working day, as well as Saturday and timed deliveries (available for a small surcharge). When ordering with Killer Ink, you can be confident that your goods will be dispatched and delivered on time, so consider it done!

*All prices listed in this catalogue are correct at time of print. Please see website for current prices.

FREE DELIVERY

Applies to mainland UK only. Orders for £25 + VAT and over via UPS next working day service, under £25 + VAT via Royal Mail Tracked 48hr.

Killer Ink are distributors for a number of top named brands, including:

Intenze Tattoo Ink makes some of the best tattoo inks in the world. Intenze Tattoo Ink was developed by the legendary Mario Barth and is manufactured in the USA. Many of the world's best tattoo artists use Intenze Tattoo Ink, such as Boris, Randy Engelhard, Steve Butcher, Moni Marino, Bob Tyrrell, Alex De Pase, Dmitriy Samohin, and many more.

Killer Ink Tattoo stocks a huge range of Intenze Tattoo Ink, from basic and new colours to pastel colours, a lining colour series and a trio of grey wash tattoo inks. We also offer various individual tattoo inks and complete tattoo ink sets that were made in collaboration between Intenze Tattoo Ink and some of the world's best artists.

Fusion Tattoo Ink is the result of a collaboration between Adam Everett and Next Generation Tattoo machines. Adam Everett has been producing pigments since 1995, so it comes as no surprise that his tattoo inks are thick with a high-pigment load and contain no fillers. Fusion Tattoo Ink is an organic pigment that is completely vegan-friendly.

Developed by Terry Welker from Michigan, USA with 30 years' experience in the industry, Eternal Tattoo Ink has now become one of the most popular tattoo ink producers in the world.

Eternal Tattoo Ink offers a massive range of vibrant colours and features various signature tattoo ink series from its sponsored artists. World renowned tattoo artists like Rich Pineda, Liz Cook, Jess Yen, Myke Chambers, Andrea Afferri, and Rember Orellana have their own Eternal Tattoo Ink signature series.

Eternal Tattoo Ink produces a whole spectrum of bright, eye-popping colour tattoo inks, including blacks, whites and grey washes.

Solid Ink uses only organic pigments of the highest quality. The pigments are very concentrated, resulting in super bright colours and maximum saturation.

All inks from Solid Ink are easy to work with and vegan-friendly.

Bullets Tattoo Ink is a German quality product of the H-A-N GmbH based in Esslingen. Experienced and creative tattoo artists as well as engineers and chemical-technical assistants are involved in the production of the ink. It is characterized by high luminosity, brilliance and resistance to light. Therefore, it is perfectly suited for cover-ups. It can be diluted with water in order to easily achieve the desired processing viscosity.

Atomic

TATTOO INK

The colours for Atomic Tattoo Ink are created using innovative and avant-garde formulas, perhaps the most advanced in the world of Professional Tattooing. The innovative formula makes this tint shiny, fluid and easy to apply. The colour spreads efficiently under the skin because of its carefully selected and tested quality ingredients. It's easy to mix with other inks to achieve infinite gradations.

All the inks respect the strict European legislations ResAP(2008)1 with regards to the release of aromatic amines, PAH and content of heavy metals. All inks are sterilized to guarantee absolute microbiological safety.

RALF NONNWEILER • SMOOTH SET

COMPLETE SET OF 2 (150ml) £36.00

PANRN150-SET1

Step One: Blending
150ml
PANRN150-BLENDING
£18.00

STEP ONE: BLENDING

Step One: Blending contains less pigment than *Panthera Light Sumy Shader*, and can be used to blend in areas of your tattoo.

It can be used in portraits on areas such as the forehead or light parts on the nose, etc. It could help you create bumps and wrinkles in very light areas, without being too dark that it would look dirty.

It's even good for achieving a look of skin pores, as with this dilution it will leave no black dots as pores.

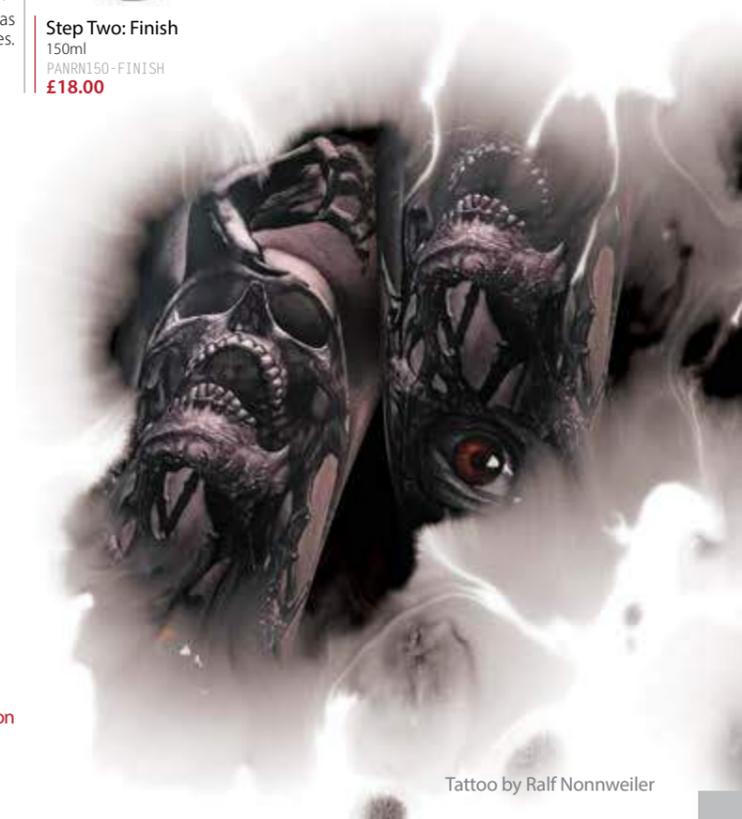

Step Two: Finish
150ml
PANRN150-FINISH
£18.00

STEP TWO: FINISH

Step Two: Finish contains even less pigment and is used for the final stage of your piece. Using **Finish** enables you to completely saturate even the lightest areas of the tattoo you may have previously left untouched. And when the tattoo heals, the area you saturated with **Finish** will remain in the skin.

INDIVIDUAL COLOURS (150ml)

CARBON BLACK TATTOO INK
 ONE DOZEN BLACK

Carbon Black Tattoo Ink are vegan-friendly tattoo inks, produced by the same company behind Bullets Tattoo Ink and Rabbits Tattoo Ink, H-A-N GmbH.

The Carbon Black Tattoo Ink range comprises seven Sumi tattoo inks, two liners and four fillers, with black saturation ranging from 47% to 100%. With so many different tattoo inks to choose from, all tattoo artists will be able to find their personal favourite from the Carbon Black Tattoo Ink product range.

CARBON BLACK TATTOO INK - COMPLETE SET OF 13
 CARBON-BLK-SET/50 **50ml - £156.00**
 CARBON-BLK-SET/100 **100ml - £264.00**
 CARBON-BLK-SET/200 **200ml - £456.00**

Includes One Dozen Black set and Blackout 13.

INK COLOR	01	02	03	04	05	06	07	08	09	10	11	12
	SUMI	LINER	LINER	FILLER	FILLER	FILLER						
SATURATION OF BLACK ¹	47%	55%	62%	70%	75%	81%	86%	93%	95%	98%	99%	100%
DIFFERENCE IN LIGHTNESS ²	-53,40	-44,87	-38,19	-29,94	-24,48	-18,88	-13,90	-7,99	-5,01	-1,26	-0,34	-0,00
INTENSITY OPACITY BLOWOUT RISK ³ GREASINESS												

¹ Approximation

² Difference in lightness describes the value or the difference between two colors in the color space under defined conditions. We have measured the difference in lightness of every Carbon Black Tattoo Ink in relation to the darkest color: Filler 12.

³ Every professional artist knows that blowouts cannot be ruled out. Sumi 07 can be used for lines in delicate areas with a minimal blowout risk, where a normal liner-black would probably cause a blowout. From Liner 08 onwards, the blowout risk is increasing with the grade of opacity / pigment volume concentration.

Stigma-Rotary® has been revolutionising the tattoo industry ever since its first adjustable rotary machine in 2005. When it comes to the manufacturing of top quality rotary tattoo machines, Stigma-Rotary® is without a doubt the global leader. Stigma-Rotary®'s tattoo machines are built using revolutionary technology to make things easier for tattoo artists everywhere.

A Stigma-Rotary® tattoo machine offers maximum performance and achieves optimal results in shading, lining, blending, layering and colour packing.

As the global distributor for Stigma-Rotary® tattoo machines, Killer Ink Tattoo offers the full range of Stigma® products, including the new Fully Adjustable Pen machines, along with the new Stigma-Rotary® Advanced Needle Cartridges and Stigma® grips.

ego polygon

EGO Rotary tattoo machines are super-lightweight models with wrist-friendly designs. The original idea from UK tattoo artist Bez was to create a machine that could be held like a pen, offering perfect balance and needle control.

All EGO Rotary tattoo machines are assembled in the UK from high-grade materials and are easy to clean, with most featuring the remarkable "power triangle" system.

EGO POLYGON £450.00

The EGO Polygon is the latest cartridge-dedicated rotary tattoo machine from tattoo artist Bez. The Polygon has a fully-aluminium body with a lightweight, ergonomic design and is powered by a Faulhaber brushless motor, which is enclosed within and has no start-up delay.

The rotary machine runs very smoothly and has a perfectly straight, true linear drive motion – meaning no sideways vibration.

The slider in the EGO Polygon is made from Iguis material, which does not require oil and therefore means zero maintenance. The machine also comes with x7 main drive bars (made from Delrin) and x12 disposable drive bars (made from ABS).

It offers four levels of give, indicated by various colours: soft (yellow), medium (red), hard (black), extra hard (main drive bar only).

The EGO Polygon can be used with all types of cartridge grips: the EGO HAWKFLOW Disposable Cheyenne Hawk Grips and Cheyenne Hawk Grips can be attached directly. You can also use your cartridge grips with a backstem because an aluminium vice connector is included with the EGO Polygon.

Each machine has an RCA connection and a built-in power LED.

All EGO Polygon machines have been quality control tested and signed off by Bez himself. You will also receive a signed quality control card from Bez in every machine box.

Key Features

- Cartridge-dedicated machine
- Fully-aluminium body and vice converter
- Ergonomic design
- Faulhaber brushless motor
- Slider requires zero maintenance
- Comes with x7 main drive bars (made from Delrin) and x12 disposable drive bars
- Four levels of give: Soft (yellow), Medium (red), Hard (black), Extra Hard (main drive bar only)

ego vertex 2

EGO VERTEX 2 £288.00

The Ego Vertex 2 is an ultra-consistent, lightweight, robust and reliable daily workhorse. At only 85 grams, the Vertex 2 has a wrist-friendly weight and design. It is made from the highest quality aircraft grade aluminium.

As always, the Ego Vertex 2 utilises Ego's patented 'Power Triangle' system. Each machine comes with a variety of triangles; each colour signifies a different density of rubber, ranging from extra hard to super soft. This allows the artist to configure the machine the way they like it in terms of give and throw. The Power Triangle system emulates the front and back springs of a coil machine, combining the efficiency and reliability of a rotary with the workability of a coil machine.

The Ego Vertex 2 includes a direct drive system option, which allows you to harness the full power of the Faulhaber motor. By using the direct drive over the power triangles you eliminate the give, leaving you with more of an aggressive punch behind the needle.

Key Features

- Faulhaber motor
- Made from aircraft grade aluminium
- Improved geometry
- Includes a direct drive cartridge bar
- YZ-Rail system - improved smoothness, 60% less noise
- RCA connection
- Super strong vice
- Lifetime warranty on vice and shell
- Weight: 85 grams
- Protective travel case
- The most coil-like feel rotary machine on the market!

ego v2 plus

EGO V2 PLUS £198.00

The EGO R12 is a dedicated cartridge machine.

Like all the other EGO machines it uses the unique Power Triangle System which allows you to adjust the give to your liking. The Power Triangle System has been especially adapted for the R12 and on this machine they are attached to the tip of the plunger.

The EGO R12 can be used with all types of cartridge grips: The EGO Hawkflow Disposable Cheyenne Hawk Grips and Cheyenne Hawk Grips can be directly attached. A vice connector is included, enabling the usage of cartridge grips with a backstem.

Key Features

- Anodised T6 Aluminium core and vice
- UV Coated Plastic shells
- Brushless flat Swiss made Maxon motor
- Uses the Power Triangle System to generate true give
- 3.5mm power lead included
- Built-in power LED

spektra

Not content with just creating some of the world's finest coil tattoo machines, FK Irons owner Gaston Siciliano entered the 'Rotary Age' with Spektra, dedicated to the engineering of rotary tattoo machines.

Spektra, a division of FK Irons and backed by the company's famed engineering team, first entered the world of tattooing back in 2012. Just like with FK Irons, all rotary tattoo machines from Spektra are made in the USA.

spektra XION

SPEKTRA XION £600.00

SPEK-XION

Designing the Spektra Xion has taken over three years. It has been developed and tested in cooperation with top tattoo artists from around the world.

The effort put into developing this machine really shows off: The Xion is one of the most comfortable, ergonomic and lightweight tattoo machines out there. It combines a paintbrush-like experience with optimal manoeuvrability.

The seamless grip is autoclavable and tapers from 32mm to 25mm. In addition, it is compatible with all tattoo cartridges and is easy to cover and handle. The powerful 6 Watt MotorBolt has been specifically designed for tattooing and ensures optimal performance of your cartridges by providing maximum torque throughout the session. The RCA connection is concealed within the MotorBolt for extra reliability.

The Xion has fully adjustable stroke length, needle depth and give (softness), so it can all be set up according to your preferences and needs. The Xion gives you complete control over your machine and is therefore suitable for a wide range of tattooing styles.

Key Features

- Adjustable give dial (up to 2mm): Simply turn the dial to adjust
- Adjustable needle depth thanks to the Xion's click grip
- Adjustable stroke length: 3.2mm and 3.7mm stroke wheels included
- Ergonomic profile, making it easy to handle and cover
- Specially designed 6 Watt MotorBolt
- Concealed RCA connection
- Autoclavable tapered grip from 32mm to 25mm
- Compatible with all cartridges

SPEK-XION-BLKPIN	Black/Pink	
SPEK-XION-BLKRUB	Black/Ruby	

spektra XION S

SPEKTRA XION S £600.00

SPEK-XIONS-SIL

The Spektra Xion S is the Permanent Make-Up version of the Spektra Xion. It has been developed and tested in cooperation with permanent make-up artists. Compared to the Xion, it has a smaller grip and a shorter stroke length (1.8 or 2.5mm). The smaller grip has a comfortable and ergonomic design and is more suited for how PMU artists are used to work. In addition, it is compatible with all tattoo cartridges and is easy to cover and handle. The short stroke length is optimal for the smaller needles and higher speeds, which are commonly used for PMU.

The powerful 6 Watt MotorBolt has been specifically designed for Spektra and ensures optimal performance of your cartridges by providing maximum torque throughout the session. The RCA connection is concealed within the MotorBolt for extra reliability. The Xion S features adjustable stroke length, needle depth and give (softness), so it can be exactly set up to suit your preferences and needs. The Xion S gives you complete control over your machine and is therefore suitable for a wide range of permanent make-up styles.

Key Features

- Adjustable give dial (up to 2mm): Simply turn the dial to adjust
- Adjustable needle depth thanks to the click grip on the Xion S
- Adjustable stroke length: 2.5mm and 1.8mm stroke wheels included
- Ergonomic profile, making it easy to handle and cover
- Specially designed 6 Watt MotorBolt
- Concealed RCA connection
- Autoclavable tapered grip
- Compatible with all cartridges

SPEKTRA EDGE X

The Spektra Edge X is one of the most sophisticated and versatile dedicated cartridge machines ever created.

The Spektra Edge X uses the Hex Drive motor system - also featured on the Spektra Direkt - engineered to protect the core of your machine; the motor. This machine is fully compatible with the Direkt Motor Bolt which is included with the Edge X machine.

The all new patent pending Collet Vice System supports standard back stem and screw-on style adjustable grips to allow the use of standard metal and disposable cartridge grips along with Cheyenne grips on the same machine.

Key Features

- The Spektra Edge X offers a fully adjustable experience without the need for additional stroke wheels, bars, or interchangeable parts
- "Variable On-the-Fly" Micro Dialed Give Adjustment
- One full turn of the Dial takes you from no give to full give
- Self-lubricating Slider: Reducing friction, noise and prolonging the life of the part
- Adjustable Stroke from 3.0mm to 4.25mm with no interchangeable wheels or cams
- Compatible with Cheyenne Cartridges
- Pivoting drivebar self aligns with all cartridge tubes without the need for internal bushings
- First of its kind ball bearing slider stabilizer allows the slider to move linearly while reducing friction
- Lightweight at only 2.85oz/80g
- Virtually vibration free
- CNC crafted from one solid rod of 6061 T6 aluminum, mirror polished and anodized for ultimate durability
- Silent and steady, perfect for lining, shading, and color packing
- Made in the USA

Compatible with Spektra Hex Drive MotorBolt found below.

SPEKTRA DIREKT 2

The Spektra Direkt 2 has been designed to push cartridges as well as standard needles. The MultiVise System allows you to use any grip on the market: screw on grips and grip with a traditional backstem.

The Direkt 2 comes with stroke caps in three different sizes: 2.8mm, 3.4mm and 4.0mm, so you can you can adjust the stroke length to your preferences.

Key Features

- Uses Standard Needles and Cartridges with ease
- Grommetless clip-on armature
- Patented Spektra MultiVise System accepts conventional backstem and screw-on style cartridge grips without the need for adaptors
- CNC crafted from one solid rod of 6061 T6 aluminum, mirror polished and anodized for ultimate durability
- Interchangeable Stroke Caps in 2.8mm, 3.4mm, and 4.0mm sizes.
- Hex Drive MotorBolt system is compatible with Direkt 1 and Edge X Motors
- Silent at high or low voltages
- Powerful and consistent
- Maintenance free, no lubrication required

SPEKTRA HALO 2

The one machine that handles it all! The Spektra Halo 2 Crossover has been designed to push cartridges as well as standard needles. The Floating Collet Vice System on the Halo 2 Crossover allows you to use any grip on the market: screw on grips and grips with a traditional backstem, so you can use it for cartridge grips as well as grips for standard tattoo needles. It has never been easier to change from cartridges to standard needles!

Key Features

- Uses Standard Needles and Cartridges with ease
- Grommetless clip-on armature
- Patented Spektra MultiVise System accepts conventional backstem and screw-on style cartridge grips without the need for adaptors
- CNC crafted from one solid rod of 6061 T6 aluminum, mirror polished and anodized for ultimate durability

FK Irons (Fallen King Irons) started with a tattoo artist by the name of Gaston Siciliano building a few tattoo machines for his friends. From these humble beginnings, FK Irons has gone on to transform the way in which many tattoo machines are made and how they are used by tattoo artists.

The latest handmade tattoo machines from FK Irons are now sold across the globe and used by some of the world's best tattoo artists.

Precision, reliability and accurate performance are the hallmarks of all FK Irons tattoo machines. All tattoo machines from FK Irons are super-light and indestructible, featuring the hardest aluminium grade available on the market.

FK IRONS AL13 ROSWELL £399.95

The Roswell features the same updated vice system as their Galaxie III and Exactor III machines with an inlaid rear yoke for superior connectivity and their trademark 1.5 coil system for optimal performance and balance.

Crafted out of their standard aircraft grade aluminium, the Roswell weighs in at only 137.5g and is anodized for durability. Each machine will come with a unique anodized colour splattered pattern.

Key Features

- New Guillotine Vice mechanism with 5 point clamping provides a secure grip on all standard metal and disposable tubes
- Inlaid steel rear yoke provides increased connection and provides multiple positioning options for ultimate contact with clip cords
- Connection: Comes with both RCA and Standard Clip Cord Input
- Revised frame geometry for increased sturdiness and less vibration
- Aluminium: 7075-T6 - Aircraft Aluminium
- Weight: 137.5g

FK IRONS AL13 GALAXIE III £399.95

The Galaxie III pushes anything from a single needle to a 50 mag. While this machine has some serious force, it will let you work multiple passes without causing excessive trauma thanks to the way FK Irons tune each machine. It weighs an incredibly light 128g weight, which makes it ideal for those long sessions!

FK Irons invented this machine for those artists looking for a big break in terms of consistency and weight. The AL13 Galaxie III will push any type of needle configuration.

Key Features

- New Guillotine Vice mechanism with 5 point clamping provides a secure grip on all standard metal and disposable tubes
- Inlaid steel rear yoke provides increased connection and provides multiple positioning options for ultimate contact with clip cords
- New streamlined designed with internal radial joints for increased sturdiness and less vibration
- Connection: Comes with both RCA and Standard Clip Cord Input
- Aluminium: 7075-T6 - Aircraft Aluminium
- Weight: 128g

NeoTat was founded by American Ray Webb, a man with an extensive background in electric and mechanical engineering who began building tattoo machine parts in the early '90s for a tattoo supply company.

All rotary tattoo machines built by NeoTat are proudly manufactured in the USA from only the best materials and components. Each tattoo machine is hand-fitted and assembled before it goes through a rigorous testing process. This gives tattoo artists peace of mind that their purchase will work consistently for many years to come.

NEOTAT STREGATO £480.00

- Key Features**
- Dedicated, smooth running cartridge machine
 - Connectivity: RCA or Clip Cord
 - EyeLoc System: a unique locking bar loop system that keeps the bar centered
 - 50 EyeLoc's included (25 soft and 25 hard)
 - Lightweight, anodized aluminium body
 - Magic Motor
 - Stroke Length: 2.5mm, 3.5mm or 4.2mm
 - Weight: 113g

EQUALISER™ ROTARY MACHINES

EQUALISER™ MIKRON £366.00

The Equaliser™ Mikron Tattoo Machine in black is a pen style rotary machine. It is very small and light and has been ergonomically shaped, making it very comfortable to work with. It can be used with both standard backstem cartridge tubes or screw on cartridge tubes.

Key Features

- **Compatibility:** Standard backstem cartridge tubes or screw on cartridge tubes
- **Connection:** RCA
- **Machine Type:** Rotary Pen
- **Motor:** 4.5W (Faulhaber)
- **Stroke:** 3.5mm
- **Voltage:** 11V (max)
- **Weight:** 55g

CODE	COLOUR
EQUAL-MIKRON-BLK	Black

EQUALISER™ MIKRON TURBO £384.00

The Equaliser™ Mikron Turbo Tattoo Machine shares many of the technical features of the Equaliser™ Mikron above. The main differences include an adjustable cartridge grip and the hidden RCA connection being positioned at a 35-degree angle. It is also the heavier machine of the two, weighing in at 104g compared with 55g of the Equaliser™ Mikron Turbo.

Key Features

- **Weight:** 104g

CODE	COLOUR
EQUAL-MIKTUR-BLK	Black

EQUALISER™ PROTON £312.00

The Equaliser™ Proton is a sleek rotary pen tattoo machine from Kwadron, a company recognized for having some of the best tattoo needles in the industry and the only company to produce tattoo equipment in Poland.

This machine features a powerful 5W motor and an advanced gear system that guarantees reliable, quiet operation without any vibration. The Proton is incredibly lightweight at 130g with a high quality anodized aluminum frame. It is also extremely versatile with an adjustable needle depth from 0 to 4.5mm and 3.5mm stroke. The Equaliser™ Proton is compatible with all cartridge needles.

Key Features

- **Compatibility:** All cartridge needles
- **Connection:** RCA
- **Diameter:** 25mm
- **Length:** 118mm
- **Machine type:** Rotary Pen
- **Motor:** 5.0W
- **Needle Depth:** 0.0mm-4.5mm (manually adjustable)
- **Stroke:** 3.5mm
- **Weight:** 130g

Inkjecta

FLITE NANO ELITE

INKJECTA FLITE NANO ELITE £504.00 LIMITED EDITION £618.00

The Inkjecta Flite Nano Elite is a rotary tattoo machine for cartridges. It features a billet alloy construction and a custom Nano technology motor, which ensures a very smooth performance. The Inkjecta Flite Nano Elite is the most versatile of the Inkjecta machines: it comes with all four drive bars: the soft, medium and hard torsion drives and the black semi rigid drive. This allows you to set up the hardness of your Inkjecta exactly as you like it.

Key Features

- **Compatibility:** Can be used with Cheyenne Hawk or Killer Ink cartridges. Compatible with cartridge grips with a backstem; such as Inkjecta Cart Grips, RPG Ergo Click Grips and Cheyenne Grips
- **Connection:** RCA
- **Frame:** Alloy Billet Construction
- **Inox Lubricant** included
- **No start-up delay**
- **Non-polarity sensitive**
- **Operating Voltage:** 4.5V - 20V
- **Painted 3.25mm cam**
- **Storage case and manual included**

FLITE NANO LITE

INKJECTA FLITE NANO LITE £403.20

The Inkjecta Flite Nano Lite is a stripped down version of the Flite Nano Elite. The Flite Nano Lite has the same billet alloy construction and custom Nano motor as the Elite, so it will run just as smoothly. The difference is that the Lite does not have the LED activation light or the side bumpers and the cam is not painted. It also comes with just the black semi rigid drive bar.

CODE	COLOUR
INKJECTA-LITE-STLTH	Stealth Matt

FLITE NANO TITAN

INKJECTA FLITE NANO TITAN £504.00

The Inkjecta Flite Nano Titan is a rotary tattoo machine for cartridges. The frame is made out of carbon fibre, making it a very lightweight machine - just 47 grams. This makes it very comfortable and easy to use. The Inkjecta Flite Nano Titan is also a very versatile machine, you can set the hardness up just as you like it by using either the semi rigid or medium torsion drive bar.

Key Features

- **Compatibility:** Can be used with Cheyenne Hawk or Killer Ink cartridges. Compatible with cartridge grips with a backstem; such as Inkjecta Cart Grips, RPG Ergo Click Grips and Cheyenne Grips
- **Black semi rigid bar and medium torsion drive included**
- **Connection:** RCA
- **Frame:** Lightweight Carbon Fibre
- **Inox Lubricant included**
- **LED Activation Light**
- **No start-up delay**
- **Non-polarity sensitive**
- **Operating Voltage:** 4.5V - 20V
- **Painted 3.25mm cam**
- **Storage case and manual included**
- **Titanium lock nut**
- **Weight:** 47g

CRITICAL TATTOO®

CRITICAL XR & XR-D POWER SUPPLY

- Key Features**
- Ability to record your session time with an hourly rate
 - Built-in short circuit protection
 - Can be operated with or without a foot pedal thanks to the pedal override button
 - Can store up to 6 different voltage presets, making it easy to switch between machines or between lining and shading
 - Comprehensive, 2 year manufacturer's warranty
 - **Construction:** Aluminium housing
 - Easy to read, large fonts with an adjustable colour theme
 - Full colour display
 - Jump start for hard starting machines
 - Magnetic mount included
 - **Measures:** Volts, Amps, Speed (Hz), Duty Cycle (%), and Settle (similar to follow through)
 - **Voltage:** 0V-18V DC
 - Voltage Adjustment: 0.1V increments
 - Voltage presets with 2, 4, or 6 machine memory modes
 - Made in the USA

CX-XR-D-UK	Critical XR-D Dual input	£419.99

CRITICAL ATOMX POWER SUPPLY

The Critical AtomX is a small, user-friendly tattoo power supply. The AtomX features the easy to operate buttons as the Critical Atom Power Supply.

- Key Features**
- Built-in magnets and silicone base for use on a variety of surfaces
 - Built-in short circuit protection
 - Can be used with or without a foot pedal
 - Colour indicates voltage (1.5V – 17V in 0.1V increments)
 - Compatible with all coil and rotary machines
 - Comprehensive, 2 year manufacturer's warranty
 - Fully machined, anodized aluminum housing
 - Jump start for hard starting machines
 - Maintained or momentary foot pedal modes
 - One button for all settings

CODE	COLOUR	PRICE
CX-ATOMX-BLK-UK	Black	£238.80
CX-ATOMX-SIL-UK	Silver	£238.80

CRITICAL ATOM POWER SUPPLY

The Critical Atom Power Supply looks like no other power supply: the colour of the power supply changes depending on the voltage you're running your machine on. The Critical Atom is also extremely easy to operate: everything is done with just one button.

Key Features

- Built in magnets and silicone base for use on a variety of surfaces
- Built in short circuit protection
- Can be used with or without a foot pedal
- Colour indicates voltage (1.5V – 17V in 0.1V increments)
- Compatible with all coil and rotary machines
- Comprehensive, 2 year manufacturer's warranty
- Fully machined, anodized aluminum housing
- Jump start for hard starting machines

TRINITY

TRINITY POWER SUPPLY £516.00

POW-TRINITY

The Trinity Power Supply is a wearable tattoo power supply that can be attached to your forearm with an adjustable strap to give you complete freedom of movement while tattooing. This power supply offers a great solution for artists working in a confined space or at conventions when they are not guaranteed to be near a socket. Artists will no longer be constricted by cables running to foot pedals and power outlets

Contents of the Trinity Power Supply Case

- 1x Trinity power supply
- 2x Rechargeable lithium batteries (5000mah each)
- 2x Adjustable wrist bands (1 Small, 1 Large)
- 1x USB charging cable for the batteries
- 3x Cords: RCA, Female Mini Jack (Cheyenne), DC 5.5 (EZs, Tesla and many more)
- 1x RCA/ClipCord Adapter
- 1x User Manual (English)

Key Features

- Wearable power supply
- Memory for up to 4 preset voltages
- Boost mode
- Warranty: 24 months

MUSO TOKU

MUSOTOKU POWER SUPPLY £300.00

POW-MUSOTOKU

Key Features

- 3 Modes: standard, one-click and maintained
- 3 Types of overcurrent protection
- Construction: Aircraft-grade aluminium
- Dimensions: 116mm x 72mm
- Display: High contrast OLED display
- Memory for up to 4 presets
- NITRO startup boost
- Output Voltage: 2V - 16V
- Output: 5A
- Pedal push detection
- Timer
- Voltage Adjustment: 0.1V
- Weight: 169g

iPOWER WATCH

iPOWER WATCH £156.00

IPOWER-WATCH-BLK

The iPower Watch is a battery-operated power supply for tattoo machines. You wear it around your wrist and connect it to your tattoo machine with a short cable. The iPower Watch gives you more freedom and flexibility while you are tattooing, because you will no longer need long cables running to your power supply that can get in the way and restrict your movements.

Key Features

- 6 Lithium Batteries (1500 mAh)
- Battery-powered tattoo power supply
- Charge lasts up to seven hours (five hours for Cheyenne machines)
- Charges in two hours
- Comes with charging cable and 3 adaptors
- Five indicator lights
- Five output settings: 5V, 6.5V, 8V, 9.5V and 11V
- Magnetic clasp
- Weight: 102g

PIRANHA

PIRANHA COMPACT POWER SUPPLY £162.00

POW-COMP-UK

The Piranha Compact Power Supply is a small, yet sturdy power supply specifically designed for tattoo machines. It is very easy to use: there is just one knob to change the voltage or the four memory presets. The magnetic feet let you attach the Compact to any magnetic surface, giving you extra flexibility in where you place your power supply during tattooing.

The non-slip base will ensure it does not slide on a horizontal surface. It can be used with a foot pedal or with the pedal override. The high quality engineering with microprocessor integration, certificated components, short circuit and overload protection make this a very reliable and durable tattoo power supply.

Key Features

- Aluminium body
- CE certified
- Magnets enable power supply to be secured on steel surfaces
- Output: 3A, 3-18V
- Overload protection
- Pedal override
- Suitable for both coil and rotary machines
- Up to four memory presets
- Very small and compact
- Voltage Adjustment: 0.1V

NEMESIS

NEMESIS LED Tattoo Power Supply

- Key Features**
- Built-in hybrid latch switch so the power supply can be operated without a foot switch
 - **Dimensions (L x W x D):** 70mm x 80mm x 35mm
 - **Display:** Three digit LED display
 - Extremely compact and light weight
 - **Max Power Output:** 24V
 - Non-slip base
 - **Output Setting:** 10 turns on the precision potentiometer to reach maximum output
 - **Weight:** 200g

CHEYENNE®

PROFESSIONAL TATTOO EQUIPMENT

SOL NOVA

CHEYENNE® SOL NOVA

The Cheyenne Sol Nova is a light yet powerful pen-style rotary tattoo machine. It runs very quietly with minimum vibration. The powerful brushless DC motor packs a punch, resulting in faster ink saturation - although its quiet and soft operational mode means that it still remains gentle on the skin. This smooth and soft running allows for a faster healing process.

The Sol Nova is relatively short with most of its weight shifted towards the front, making it a perfectly balanced machine, offering optimum control and accuracy. Comfortable to hold, its wide grip helps make the Cheyenne Sol Nova a very easy tattoo machine to work with. Compared to the Cheyenne HAWK Pen, the Sol Nova offers more power and softer handling, while being just as easy to cover for hygiene and safety purposes.

The Cheyenne Sol Nova is a great all-round rotary tattoo machine. Featuring a 3.5mm stroke, it is ideal for precise lining, as well as soft shading. The motor will start running on very low speeds (25Hz) so the Sol Nova can be used for a wide range of different styles, including Black & Grey, dotwork, and colour realism. Simply use the Sol Nova on low frequencies for dotwork and realism, and on higher frequencies for fuller and more intense lines.

The Sol Nova can be used with the included 33mm grip or with Cheyenne's disposable Round D-Grips and One Inch D-Grips.

Key Features

- Frequency: 25 - 150Hz - ideal for a wide range of styles
- Grip: 33mm
- Length: 10.2cm
- Nominal Voltage: 5 - 12.6V
- Propulsion: Brushless DC motor for better ink saturation
- Stroke: 3.5mm. Suitable for lining and shading
- Weight: 150g

CODE	COLOUR
CHE-SOLN-BLK	Black

HAWK THUNDER

CHEYENNE® HAWK THUNDER £273.60

The HAWK Thunder is a great sophisticated tattoo machine, which combines brand-new innovations with the best of previous models. The new power of the HAWK Thunder is perceivable: the increased hub and power enable you to make highly precise lines in one go. Now, all styles are possible without any loss of quality! Lining, shading as well as coloring on the highest level.

Key Features

- Connection: 3.5mm jack plug
- Dimensions (L x W x D): 110mm x 75mm x 28mm
- Frequency: 70-170 punctures per second
- Needle Amplitude: 4.5mm
- Operating Mode: Continuous
- Operating Voltage: 5V-12V DC
- Power Input: 2.5W
- Propulsion: Precision DC motor
- Stitch Frequency: 70-160Hz
- Stroke: 4mm
- Weight: 77.5g

HAWK SPIRIT

CHEYENNE® HAWK SPIRIT £220.80

The HAWK Spirit is the new generation of the classic: just as exact, just as safe and just as hygienic. In her new design it has proven to be much more robust than before.

Key Features

- Connection: 3.5mm jack plug
- Dimensions (L x W x D): 110mm x 75mm x 28mm
- Frequency: 70-170 punctures per second
- Needle Amplitude: 3.0mm
- Operating Mode: Continuous
- Operating Voltage: 5V-12V DC
- Power Input: 2.5W
- Puncture Depth: 0.0mm-2.5mm

CHEYENNE® HAWK FIXED GRIP - STAINLESS STEEL
 For standard machine use. Compatible with all standard coil and rotary machines.

The Cheyenne® Fixed Grip allows you to use the Cheyenne needle cartridge system on all coil and rotary machines, speeding up your working process and reducing the necessity to have a multi machine set-up for each tattoo. This grip has a non-adjustable needle depth. Includes a needle bar and 3 test cartridges.

Diameter: 19mm

NEEDLE CARTRIDGES

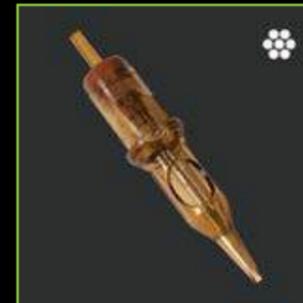

KWADRON has established a reputation for manufacturing some of the best tattoo needles around and its cartridge system is no different. The cartridges contain razor-sharp, flexible long taper needles, all grouped together with the highest possible precision.

KWADRON Cartridges also feature a needle stabilising system which ensures optimal performance of your needles. Needle tips are made from a medical-grade plastic, ensuring minimal friction and longer sharpness.

STELLAR

NEEDLE CARTRIDGES

The Killer Ink Stellar Needle Cartridges are high quality cartridges containing precision soldered needles. The round liners and round shaders are fitted with a special stabiliser to stop the needle wobbling, making them perfect for stable, accurate work.

The cartridges are fitted with a secure membrane, which ensures that no ink or blood can leak through in to the grip. The Stellar Needles are enclosed in a single capsule, made from a super strong polycarbonate material, allowing the needle to effortlessly glide without causing wear and tear. The cartridges are transparent, offering complete visibility of the needle while tattooing.

CHEYENNE®

PROFESSIONAL TATTOO EQUIPMENT

CRAFT CARTRIDGES

Cheyenne Craft Cartridges have all the qualities you have come to expect from Cheyenne: Excellent needle cartridges that are easy to use and replace. The internal membrane will protect your machine and client by stopping any fluids moving up and down the tip.

What sets the Cheyenne Craft Cartridges apart is the simplified design: The plastic tips are made from a single mould of medical grade plastic. They are designed to withstand the continuous movement of the needles, so they will not break up and release small bits of plastic into your client's skin.

PROFESSIONAL TATTOO EQUIPMENT

SAFETY CARTRIDGES

Cheyenne Hawk needle cartridges are quickly interchangeable and have their own integrated membrane that keeps ink and blood contained in the cartridge and away from the grip. The needles from the cartridge will protrude out of the end of the tip when the spring loaded needle bar plunger is pressed in and the needles will simply protrude back in to its normal starting position when pressure is released, making it safe and easy to dispose of.

Cheyenne Hawk needle cartridges are hand assembled in Germany and go through various quality check stages before they finally make it through to packaging and sterilisation.

PRECISION NEEDLE CARTRIDGES

With over 100 different needle configurations, the Killer Ink Precision needle cartridge range will have your requirements covered!

Each cartridge goes through rigorous quality control checks to ensure they meet your standards every time! Every single needle is examined to make sure only the best make it through the selection process. The cartridges are fitted with a secure membrane, which ensures that no ink or blood can pass through in to the grip.

A smooth contoured tip allows the needle to glide effortlessly through the cartridge; the tip is also completely transparent, providing you with maximum visibility enabling you to concentrate clearly on tattooing!

ADVANCED NEEDLE CARTRIDGES

Stigma-Rotary® Advanced Needle Cartridges are designed with safety in mind. They feature an external sealing cap, to prevent any leak through to the grip and machine. When connected with a Stigma grip, this forms a dual seal, so the cartridge seals completely with the grip at the connecting spot. The umbrella trap design prevents ink / blood from splattering over the cartridge sides.

The external sealing cap also provides another key benefit. Due to the thickness and elasticity of the rubber material it is made from, the external sealing cap also acts as a dampening system, providing a natural 10% give. This is optimal not only for shading, but also for lining. With just a little give, shading becomes smoother and lines become crisper than they would have without any give, enhancing your tattooing experience. All these benefits are making these cartridges safer than ever to use, so you can concentrate clearly on tattooing!

PREMIUM DISPOSABLE TUBES & CARTRIDGE TUBES

The Killer Ink Premium Disposable Tubes are ergonomically designed with comfort and ink flow in mind. The tip and backstem are made from a super strong polycarbonate material, which will not break down during use and allows the needle to glide effortlessly.

They are slightly tinted for a premium look, yet allow complete visibility whilst tattooing. The grips are made from a high quality silicone material and are perfectly balanced and weighted.

Wrath Vortex Tubes are designed to be comfortable to use and to provide maximised ink flow and the best needle support.

The 25mm grips are made from an unique, gel-like material, which absorbs the vibrations of your tattoo machine and is comfortable to hold.

The Wrath Vortex tubes come individually packaged and EO sterilised.

CARBON FIBRE DISPOSABLE TUBES

The Black N Gold Legacy Carbon Fibre Disposable Tubes are some of the strongest tubes on the market. The backstem is made out of extremely light, but super strong carbon fibre.

The silicone composite grip covers have deep grooves offering an ergonomic grip and comfort, whilst the clear plastic tips allow you to keep an eye on the needle and ink flow.

INKJECTA TEXTURED ERGO CART GRIPS · BOX OF 10 £18.00

INKJECTA · GRIPS · BLK

Inkjecta Textured Ergo Cart Grips are ergonomically designed to provide extra comfort. Vibrations caused by your tattoo machine will be absorbed by the material of these grips.

The shape of the Textured Ergo Cart Grips allows for a more natural grip, making them easier to work with even during long sessions.

- Key Features**
- Disposable cartridge grip
 - Ergonomically designed
 - Absorbs vibrations
 - EO sterilised
 - Individually packed
 - Can be used with Cheyenne Hawk or Killer Ink cartridges

Inkjecta

GORILLA CLICK ERGO GRIP £180.00

The DarkLab Gorilla Click Ergo Grip from FK Irons has been ergonomically designed to fit naturally into your hand. Its large size eliminates the need to cover it with a lot of grip wrap. The Gorilla Click Ergo Grip's profile tapers from 32 to 38 mm, providing optimum comfort and eliminating fatigue from clamping around the grip when tattooing for extended periods of time. The multiple grooves in the grip allow your fingers to rest perfectly on the grip without applying a lot of pressure, making the Gorilla Grip ideal for lining as well as colour packing. The extra weight helps with needle penetration if you're using large liners or magnums.

The Ratchet Disc click system enables adjustment of needle depth by just twisting the grip. Once the needle depth is set, it locks into place preventing involuntary turning, even with heavy tattoo machines. The 3 mm centre bore is compatible with all built-in drive bar machines.

- Key Features**
- Adjustable Needle Depth
 - Diameter: 32 - 38 mm
 - Ergonomic design
 - Compatible with autoclaves and cold sterilization

CODE	COLOUR
GOR-ERGO-CLICK-BLK	Bestial Black

RPG CLICK ERGO £144.00

The RPG Click Ergo has been designed with ergonomics in mind and utilises FK Irons ratchet disc click system, which enables adjustment of needle depth while preventing involuntary turning, even with heavy machines.

Designed in conjunction with FK Irons Pro Team artists as well as ergonomics experts, the Click Ergo profile tapers from 25-32mm, providing optimum comfort for all hand sizes. This also allows the artist to get closer to the cartridge for ultimate precision and control while supporting a natural drawing position.

The re-designed groove pattern provides a supported index finger rest and eliminates pressure points relieving hand fatigue for longer, more comfortable sessions.

- Key Features**
- 3mm centre bore for Cheyenne style needle drive bars
 - Autoclavable needle drive bar is included
 - Choose between autoclave or cold sterilisation methods

------------------------------------	------------------------------------

ego memory foam

EGO MEMORY FOAM GRIP COVERS · BOX OF 25 £18.00

Ergonomic and comfortable, the EGO disposable memory foam grip covers simply slide over any type of grip up to 25mm. Providing a larger diameter and softness whilst adding little to no weight on your current grip.

Using these covers will provide extra comfort, more control, reduce strain and absorb vibration. Along with the convenience of being fully disposable. Each grip is individually blister packed and sterile.

The EGO disposable memory foam grip covers do not lose their hold on your grip, even when in contact with ink or soap.

ego aluminium geo grip

EGO ALUMINIUM GEO GRIP £120.00

The Ego Geo Grip is a cartridge grip with adjustable needle depth. The needle depth can be simply adjusted by turning the grip. The Geo's click mechanism will lock the cartridge in the desired depth to prevent any involuntary turning while in use.

The Geo Grip has been crafted from aircraft aluminium and stainless steel, making it fully autoclavable. It has been ergonomically designed for the utmost comfort and support while giving you full control over your cartridge. The diameter of the Large Geo Grip is 37.5mm at its widest point.

The Geo Grips are compatible with all major cartridge brands.

- Key Features**
- Adjustable needle depth
 - Click mechanism
 - Fully autoclavable
 - Needle bar included
 - Vice connector included

PJ-723

BROTHER POCKETJET PJ-723 A4 MOBILE PRINTER

The Brother PocketJet PJ-723 A4 Mobile Printer offers a rugged, durable yet compact mobile printing solution. It simply connects to your computer via USB, then you can begin printing.

It is completely portable and fits neatly in a drawer, travel case or Sullen Blaq Paq. So it is perfect for travelling, conventions and studios! Its direct thermal printing technology ensures reliable quality, whatever the conditions or environment. Whilst printing, it also recognises change of tones, so during tattooing, you will be able to see areas that change tone/shade clearly instead of outlines.

Key Features

- Able to print in different tones. No more printing outlines only!
- Compatible with Windows, Mac and Android
- Dimension (W x D x H): 255mm x 55mm x 30mm
- Flexible power options
- Lightweight and portable mobile thermal printer
- Prints designs straight off your computer at 300x300 dpi
- Prints up to 8 pages per minute
- Time saving
- USB connectivity
- Weight: 480g

Stencil Kit

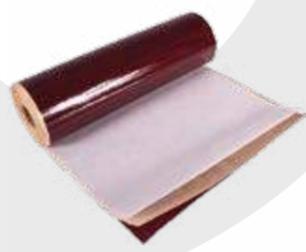

S8 RED STENCIL KIT £24.00
25-S8-KIT

The world's first red-coloured tattoo stencil paper, S8 RED Transfer Paper can be used both as a thermal stencil paper and as a freehand stencil paper. S8 Red has been created after popular demand from tattoo artists around the world who recognised the fact that red is the ideal stencil colour for light skin tones and for providing the best contrast between the stencil and the tattoo when lining and contouring in black ink.

Vegan and safe for all skin types, S8 RED is made of a patent-pending blend of FD&C and D&C approved colorants and mineral and vegetable waxes for safe and durable tattoo stencils.

Contents

- **25 Sheets of Red Stencil Paper**
Works both as thermal and freehand stencil paper.
- **25 Sachets of Red Stencil Transfer Gel**
To prepare the skin and transfer your stencil.
- **25 Sachets of Red Tattooing Gel**
To seal the stencil in place while working as a glide during tattooing.

Transfer Gel

S8 RED STENCIL TRANSFER GEL
50 Sachets • Vegan

The S8 Red Stencil Transfer Gel is an all-natural 2-in-1 Solution which can be used to clean and prepare the skin, and to transfer your stencil onto the skin.

50-S8-TRA-GEL
£18.00

Tattooing Gel

S8 RED TATTOOING GEL
50 Sachets • Vegan

The S8 Red Tattooing Gel is designed to be used as a tattoo sealant and as a topical lubricant and barrier during the tattoo process.

It will seal your tattoo stencil to the skin to prevent blurring or smearing of your outlines, while also functioning as a lubricant during tattooing.

50-S8-TAT-GEL
£24.00

Stencil Paper

S8 RED STENCIL PAPER
100 Sheets • 8.5" x 11" • Vegan

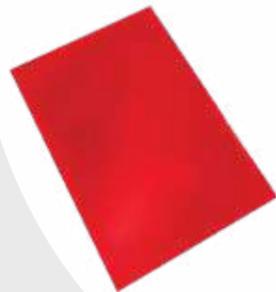

The S8 Red Tattoo Stencil Paper is the first red-coloured tattoo stencil paper that can be used for freehand as well as thermal copiers.

Its red colour makes it ideally suitable for the outlines on light skin tones: it's easier to see the difference between your red stencil and black tattooed outlines.

100-S8-PAPER
£39.00

S8 RED STENCIL PAPER
Roll • 8.5" x 100ft • Vegan

S8-ROLL
£29.40

Carrier

S8 RED CARRIER FOR THERMAL PAPER
Available in two sizes • Vegan

The S8 Red Carrier helps to distribute the heat of your thermal printer evenly, resulting in stencils without over- or underexposed spots. The Red Carrier also makes it possible to feed irregular-shaped stencils through your thermal printer.

21cm x 30cm
S8-CARRIER/12

Needle Cleaner

S8 RED NEEDLE CLEANER
50 Sachets • Vegan

S8 Red Needle Cleaner removes any ink, vaseline and biological matter from your needles. It contains plant extracts which dissolve any material which may collect in your needle groupings.

50-S8-CLEAN
£18.00

Red Soap

S8 RED SOAP
50 Sachets • Vegan

S8 Red Tattoo Soap has been specially designed for cleaning and preparing the skin during the tattoo process. It contains plant enzymes and vegetable surfactants that will remove any oils, dead skin cells and microbes from the skin. It also helps restore the pH-balance of the skin.

ELECTRUM STENCIL PRIMER
Electrum Premium Tattoo Stencil Primer is the industry's leading stencil application product. A claim that's backed by consistent positive customer feedback and growing brand loyalty.

60ml ELECTRUM-UK/60 £7.80	240ml ELECTRUM-UK/240 £19.80
--	---

ELECTRUM GOLD STANDARD
Electrum Gold Standard produces crisp tattoo stencils that will last the duration of your tattoo! Gold Standard is for artists who prefer to work with a lotion-based stencil primer rather than the original gel-based Electrum. Electrum Gold Standard works with all types of transfer paper; it has a very tacky consistency when applied, so it will hold all types of paper to the skin.
It can also be used with skin markers: apply it to the skin, let it dry for 10 minutes and you can draw right on top of it.

60ml
ELECTRUM-GLD-UK/240
£19.80

ELECTRUM GOLD STANDARD FOAMING WASH WITH CBD
Electrum Gold Standard Foaming Wash with CBD is used during the tattoo procedure to clean and soothe irritated areas. The Gold Standard Foaming Wash reduces redness and calms the skin thanks to its gentle formula infused with Chamomile and CBD.

For optimal results, apply a couple of pumps to irritated area and work foam into skin for 2 minutes. Allow to absorb for another minute before wiping away. Re-apply as needed or every 1 hour during procedures.

60ml
ELECTRUM-CBD-UK/60
£18.00

DERMALIZE®

PROTECTIVE TATTOO FILM

DERMALIZE PRO - PROTECTIVE TATTOO FILM

Dermalize is the all-in-one tattoo aftercare solution for the initial healing stage of a tattoo: a film that acts as a 'second skin' to protect tattoo wounds from germs and bacteria and at the same time, is permeable allowing the skin to 'breathe'. The film assists the skin to heal naturally from the inside out, by locking in the body's natural fluids and enzymes, which guarantees beautifully healed tattoos.

INK HEALTH®

INK HEALTH PROWRAP SELF-ADHERING DRESSING

To be used after applying your aftercare product, these flexible adhesive dressings from Ink Health are perfect for protecting your tattoo from the risk of contamination/infection during the healing process.

Using only premium materials to manufacture the finest dressing available, Ink Health PROLine Dressings use a 100% sterile surgical absorbent pad that keeps the tattoo clean and dry whilst keeping out harmful bacteria and will not stick to the tattoo whilst healing.

INK HEALTH PROWRAP SELF-ADHERING BANDAGE

Once your tattoo session is complete and aftercare has been applied, protect it using PROWrap Bandages. Ink Health uses only the finest medical grade self-adhesive materials that are gentle on skin. That means they are fast and easy to apply without clips or fasteners.

They are breathable, latex-free, non-allergenic and won't stick to the skin. Ink Health PROWrap Bandages are manufactured from high tensile strength fabric meaning there will be little or no slipping, so there is no need for frequent readjustments. The comfortable PROWrap Bandages provide excellent value and quality.

HUSTLE BUTTER®

LUXURY TATTOO CARE • DELUXE • BEFORE DURING AFTER

Killer Ink are the official importers of Richie Bulldog's Hustle Butter.
 Petroleum-free, all natural, Vegan Certified product for use
 before, during and after the tattooing process.

Made mostly from shea butters, it will greatly reduce redness, swelling and bleeding when used as a lubricant during the tattooing process. It is available in 150g tubs, 7.5g packettes and new 30g (1oz) mini tubs known as 'The Ones'. These are perfect for carrying around as aftercare, and also ideal for travelling artists. Did we say it smells great too? Hustle Butter Deluxe® is a 100% natural, 100% organic, **Vegan** replacement for all petroleum based products used to prep skin before, as a tattoo lubricant during and to care for after the tattoo process. Made from mango, coconut, papaya and other shea butters, it brings tremendous amounts of benefits:

- **No more** petroleum build up, clogged tubes or worn broken down gloves.
- Promotes healing upon contact, minimizing redness, swelling and bleeding.
- Skin remains workable, no more over worked highlights, yellows and whites go in the first time... colour has never went in so easy!
- It will not remove stencils.
- **Replace** all petroleum based products today! Hustle Butter Deluxe® will heal fresh tattoos quicker and with results that are unrivalled... results that last a **lifetime!**

SAMPLER PACK £60.00

TD-MIBL-SAMP

The Tina Davies microblading needles are made out of the highest quality stainless steel available - surgical grade 316 stainless steel, which is used for both the needles and the needle wrapper. Each microblade is inspected at least three times before being sent out to the artists to guarantee the highest quality every time.

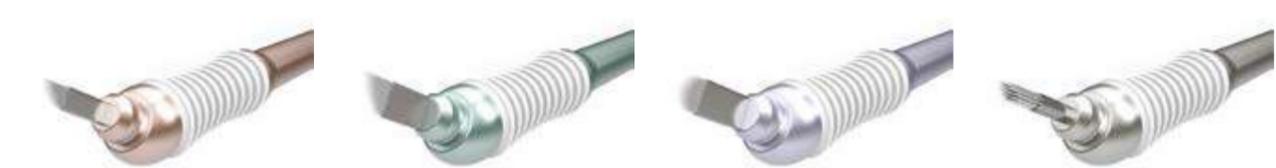

The needles of the microblades are of 0.25mm gauge to prevent bending and ensure sharp strokes, and are set at a 30 degree angle for optimal pigment application and ergonomics. All microblades are fitted with a soft, non-slip handle for comfortable and precise handling, which features a built-in ruler to ensure even and symmetrical work. All Tina Davies microblades come with a protective cap to keep the needles sharp and straight until you need them.

Key Features

- EO gas-sterilised
- Gauge (Diameter): 0.25mm
- Individually blister-packed
- Non-slip grip with ruler
- Protective cap
- Surgical grade 316 stainless steel

Pound of Flesh

A Pound of Flesh is a silicone / rubber based synthetic body part created to replicate the experience of tattooing a client's real skin. Its main purpose is to help an apprentice learn tattooing techniques under real conditions, without having to practice and make mistakes on real people.

A Pound of Flesh is the closest thing out there to real skin by a long way.

Tattoo-FX

TATTOOABLE SILICONE SPHYNX CAT

This life size replica Sphynx cat is made by hand by Tattoo FX. It is incredibly detailed and lifelike and the best thing is that it tattoos just like real skin. You can also paint it or decorate it in any way you want. A great way to draw attention to your art!

FX-SPHYNX
£120.00

TATTOOABLE SILICONE INKENSTEIN

Are you a mad tattooist looking for someone to perform your crazy experiments on? Tattoo FX have created: the fully tattooable Inkenstein.

This life size replica head is hand made by Tattoo FX from tattooable rubber and it tattoos just like real skin. You can also paint it or decorate it in any way you want and give your own twist to the classic monster.

FX-INKENSTEIN
£168.00

REELSKIN

ReelSkin makes high-quality, realistic tattoo practice skin, designed to look, feel and stretch like the real thing. ReelSkin is made from original raw material which causes no allergy on contact. It is also flexible and thick enough for double-sided usage.

Terms and Conditions

Introduction

To the fullest extent permitted by law, the controlling language for these Conditions is English.

We are Killer Ink Limited (registered company number 06803935) whose registered office is at 54 Evans Road, Venture Point, Speke, Liverpool L24 9PB (we/us). We are VAT registered. Our VAT number is 973 6863 66.

Definitions

The words below shall have the following meanings:

“Conditions” these terms and conditions;

“Content” all content in the Catalogue, including without limitation copy, text, artwork, graphics, logos, trade marks, designs, icons, and images

“Force Majeure” any Act of God, war, riot, civil disturbance, workforce matters, terrorism, fire, storm or flood, legislation or law, restriction, regulation, bye-law, measures by governmental, parliamentary or local authority, import or export regulation or embargo, strike, industrial dispute, or lockout, explosion, power outage, breakdown, or unavailability of plant, property, and/or machinery or any other cause beyond our reasonable control;

“Product” a product displayed for sale in the Catalogue;

“Purchaser” an individual and/or business entering into a contract to purchase our services and/or products;

“Registered Studio” a tattoo studio registered with the local Environment Health Department, under the Local Government (Miscellaneous Provisions) Act 1982 or equivalent department or legislation of the relevant territory where the tattoo studio carries on its business;

“Trade Marks” our trade marks whether registered or unregistered including but not limited to “Killer Ink”;

“you” the person visiting or using the Website and who may be the Purchaser or an agent, employee, contractor, officer or member of the Purchaser.

Usage

You agree to fully indemnify, defend and hold us and our officers, directors, employees, agents and suppliers, harmless from and against all reasonable claims, liability, damages, losses, costs and expenses, including reasonable legal fees, arising out of any breach by you of these Conditions or any other liabilities arising out of your use of the Products.

Telephone Calls

Please note that all phone calls to or from our offices may be recorded for quality and training purposes.

Orders

Our policy is to supply Registered Studios only. A copy of your registration certificate issued by your local environmental health department (or equivalent) may be required at our discretion before initial orders are processed and at any time we in our reasonable opinion consider such a request is necessary.

You warrant that you will use the Products in compliance with all relevant laws and regulations.

You warrant that you shall not supply or make available the Products to minors or vulnerable persons.

You warrant that the purchase of the Products is for use at your Registered Studio only and you warrant and undertake not to sell or offer for sale the Products to consumers or unregistered studios.

All orders are subject to acceptance in accordance with our order acceptance policy

All Products are subject to availability.

Limitation of Liability

This Catalogue and the Content is designed for people within the United Kingdom and we make no representation that any Products displayed for information only in the Catalogue is appropriate for use, or available outside of that territory. Where your order is for delivery to a territory outside of the United Kingdom you warrant that you have the right in that territory to purchase the Products and that use of the Products in the territory shall be lawful. You agree to fully indemnify, defend us and hold us harmless against any losses, costs, fines and/or payments we may incur as a consequence of our delivery of your order.

We recommend spot testing or consultation with a dermatologist prior to use of the Products.

We have made every effort to display the Products featured in the Catalogue as accurately as possible. However, the colours used may appear quite different to the actual Product. We will not be held responsible for the limitations of technology and cannot guarantee that any colour, texture, or detail of actual merchandise will be accurate in the Catalogue.

We do not make claims to the accuracy, either expressed or implied of the Content of the Catalogue. We reserve the right to amend errors, and make changes to the Product information at any time without prior notice and without any liability on our part. To the fullest extent permitted by law, we disclaim all warranties, expressed or implied.

Subject to fraudulent or negligent misrepresentations, we will not be liable for any economic losses (including without limitation loss of revenues, profits, contracts, business or anticipated savings); any loss of goodwill or reputation; or any special or indirect losses suffered or incurred by that party arising out of or in connection with the provisions of any matter under the Conditions.

Our liability under any contract for Products purchased shall be limited to the value of your order.

We shall not be under any liability to you due to our failure, delay or default in carrying out all or any of our obligations under these Conditions due in whole or in part to an event of Force Majeure.

Nothing in our Conditions or in the Catalogue shall exclude or limit our liability for death or personal injury resulting from our negligence or that of our servants, agents or employees.

Nothing in our Conditions or in the Catalogue shall affect your statutory rights.

Intellectual Property

The Content of the Catalogue and the rights in and to the Content is owned and controlled by us or licensed to us.

The Trade Marks used in the Catalogue are our registered and unregistered marks and are protected by English and international trade mark laws.

You agree not to (and agree not to assist or facilitate any third party to) copy, reproduce, transmit, publish, display, distribute, commercially exploit or create derivative works of such material and content.

Compliance with Laws

This Catalogue may be used only for lawful purposes and in a lawful manner. You agree to comply with all applicable laws, statutes and regulations regarding the Catalogue.

Severability

If any part of the Conditions shall be deemed, by a court (or similar authority) of competent jurisdiction, unlawful, void or for any reason unenforceable, then that provision shall be deemed to be severed from the Conditions and shall not affect the validity and enforceability of any of the remaining provisions of the Conditions.

Third Party Rights

For the avoidance of doubt nothing contained in these Conditions shall confer on any third party any benefit or the right to enforce any term of these Conditions or any contract with us.

Waiver

No waiver by us shall be construed as a waiver of any preceding or succeeding breach of any provision.

Entire Agreement

You confirm that, in agreeing to accept the Conditions, you have not relied on any representation save in so far as the same has expressly been made a term of these Conditions and you agree that you shall have no remedy in respect of any representation.

Law and Jurisdiction

The Conditions shall be governed by and construed in accordance with the laws of England the courts of which shall have exclusive jurisdiction.
